

## THE RECYCLED SLIM DESIGN

### PE PIR TUBE

Reduced thickness, incorporates a material made of post-industrial waste recycling.

## THE BREAKING INNOVATION

### PAPERBOARD TUBE

True green innovation, alternative to the classic tube. Enables the greatest reduction of plastic.

**Eco-friendly tubes for sustainable development**  
**Reduced - Recycled - Biobased**

 **Ets Bugnon**

## THE CIRCULAR TREND

### PCR TUBE

Reuses plastic waste and supports the circular economy. Limits the use of virgin plastic.

## THE BIO-BASED SIMPLICITY

### GREEN PE TUBE

Produced with sugar cane ethanol (renewable natural resource). Recyclable, limits the use of petroleum-based plastic.
